

# VOTE NO! on March 21st!

Really! It's OK! Civilization won't collapse!

River Forest Children Will Still Get a Good Education  
The District knows it has overspent, but they don't want to ask the Teacher's Union or Administrators to contract out services, give up perks, or tighten their belts. They want taxpayers to pony up AGAIN!

The fact is that the District has room to cut costs without cutting programs. They simply need to put taxpayers and children ahead of the spending interests. By voting "No," you will empower the Board to say "enough is enough."

Your Property Values Won't Go Down

Did you know that every extra \$100/month in taxes reduces the number of people who can afford your property? The myth that you can *tax your way into property value growth* is as exaggerated as it is specious.

You have neighbors that lived all their lives in River Forest who are being taxed out of their homes. They deserve better treatment.

But What About the Cuts?!

1. Districts all over Chicagoland have threatened their citizens with CUTS, but ended up not cutting programs after referenda were repeatedly turned down. Call their bluff. If they cut programs instead of perks, vote them out.
2. Some programs can be maintained based upon cost savings and the use of a little creativity.
3. Some programs may have to go. Is it fair for families in their prime earning years to force their elderly neighbors to pay for "childcare services?" *It isn't politically incorrect or morally wrong to ask such an obvious question.*
4. There is nothing wrong with cutting spending! The Federal Budget has \$77 trillion of unfunded liability. The State's unfunded liability is at \$39 billion and *Property tax hikes in Illinois are unsustainable!* Voting "NO" will not only keep your taxes from growing out of control. It will also begin the necessary process of Tax and Education Reform in Springfield.

## ***VOTE NO! on March 21st!***

The "Pro-Tax and Spend" lobby has attacked the facts in our flyer. See our response at [www.extremewisdom.com/RiverForest](http://www.extremewisdom.com/RiverForest)

Don't give too much credence to 'Newspaper Endorsements.' Though they are run by fine people, local papers are often serve as the "marketing wing" for "Education Industry propaganda.

Remember! "Tax Cap" loopholes mean that your taxes can rise far faster than advertised! Vote down ALL referenda until the "Tax Cap" law is fixed!
